3. This is a floor plan for a new home.

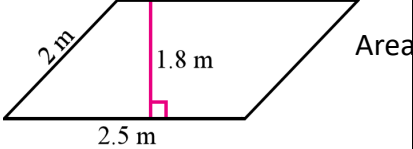

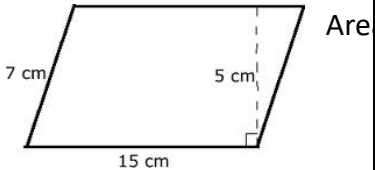

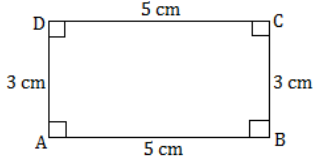

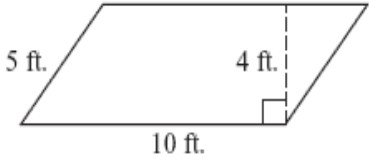

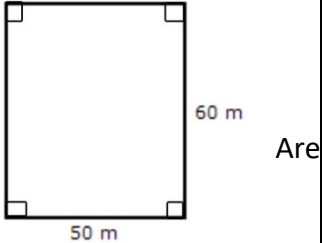

Use the floorplan to find the perimeter of each of the following rooms

Master Bedroom	Bathroom 2	Media Room
Bedroom 1	Verandah	Bathroom 1
Bedroom 2	Kitchen and Dining Room	Hallway

2. Find the area of each of the following triangles.

<p>Example:</p>  <p>$Area = \frac{1}{2}bh$ $= \frac{1}{2} \times 40 \times 30$ $= 600 m^2$</p>	<p>a)</p>  <p>Area = _____ _____ _____</p>	<p>b)</p>  <p>Area = _____ _____ _____</p>
<p>c)</p>  <p>Area = _____ _____ _____</p>	<p>d)</p>  <p>Area = _____ _____ _____</p>	<p>e)</p>  <p>Area = _____ _____ _____</p>

3. Find the area of each of the following circles. Use $\pi = 3.14$.

<p>Example:</p>  <p>$Area = \pi r^2$ $= (3.14)(12)^2$ $= 452.16 mi^2$</p>	<p>a)</p>  <p>Area = _____ _____ _____</p>	<p>b)</p>  <p>Area = _____ _____ _____</p>

4. Calculate the shaded area, knowing that the side of the outer square is 6 cm.

5. In a circular park with a radius of 250 m there are 7 lamps whose bases are circles with a radius of 1 m. The entire area of the park has grass with the exception of the bases for the lamps. Calculate the lawn area.

3.3 NETS

Using the nets show below, deduce what the final 3-D shape will end up being. A single name could be used for more than one net. Take your time and try to picture the net in 3-D before writing your answer.

1. _____

4. _____

2. _____

5. _____

3. _____

6. _____

7. Build That Net!

You will find several large nets on the next three pages of this Learning Guide. Cut out each of these carefully and actually construct the 3-D version of the net. Cut out the net carefully, being sure to leave the construction tabs in place also (light gray). The dotted lines indicate possible folding points, not cut points. Before you start constructing, be sure you know which 3-D object you will be creating. You will need some tape or glue to hold the constructs together.

8. Create Your Own Net

Now you get the chance to create your own net from scratch. You have been hired to create a model of a one-story house with an annex. Create a net and construct the 3-D object. Be as creative as you wish with this.

Draw your net below:
